THE COST OF CORRUPTION: WHY CHANGE IS URGENT

PROTOTYPE

<https://aucetra.monzim.com/>

How Corruption in Procurement Affects Every Citizen

2,912 BDT

Each citizen loses **2,912 BDT**/year
from procurement corruption

**35,000,00,00,000
BDT**

Public procurement corruption
costs **>350 billion BDT** annually

**2,80,000,00,00,000
BDT**

30% of development funds
misappropriated (2011–2023)
→ **~2.8 trillion BDT**

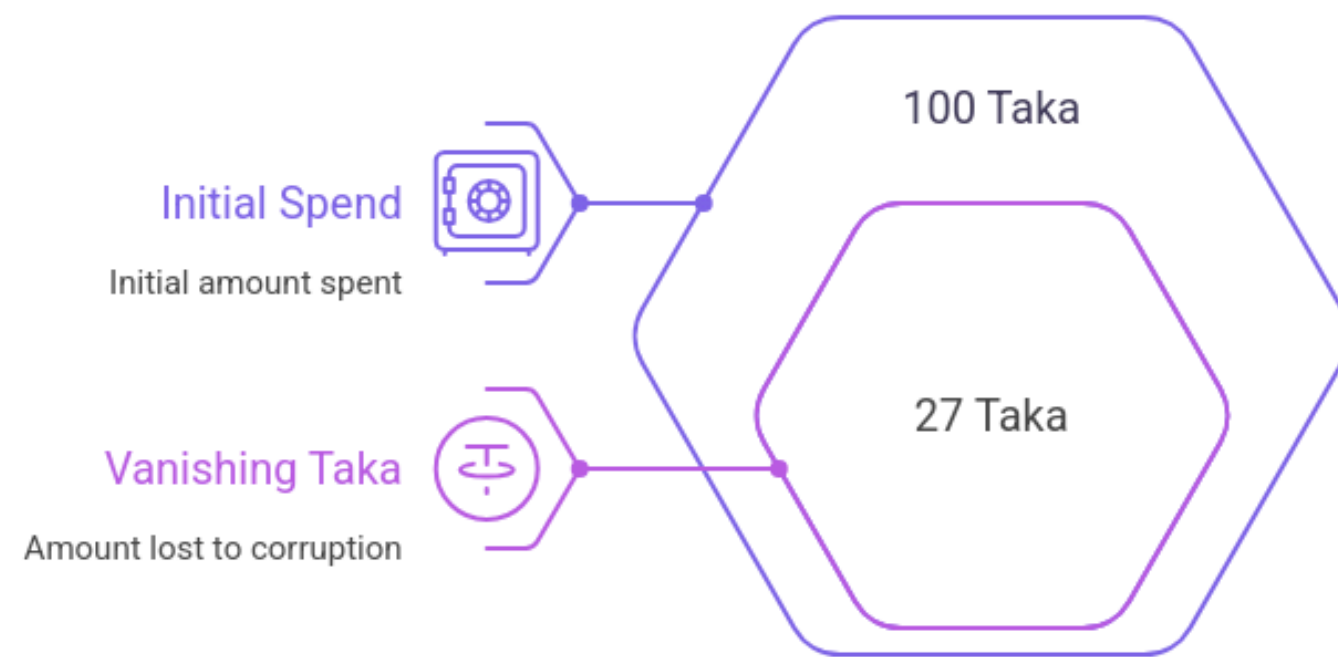

PROTOTYPE

Dhaka Tribune TI Bangladesh

Procurement Corruption's Grip on Bangladesh's Economy

Corruption's Impact on 100 Taka Spent

Where Corruption Loss Could Be Spent

Corruption drains 35,000+ crore BDT yearly—27% of funds lost, enough for 10 hospitals or 1,000 schools.

What if **Auctra** launched 14 years ago?

HOW CURRENT SYSTEM WORKS

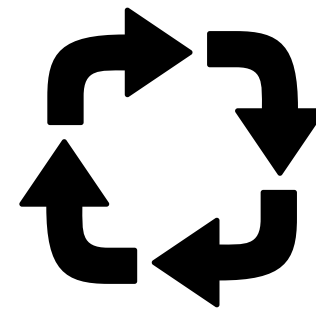

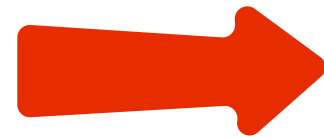

PROTOTYPE

<https://aucetra.monzim.com/>

KEY CHALLENGES IN PUBLIC PROCUREMENT

Budget Manipulation

Redundant Processes

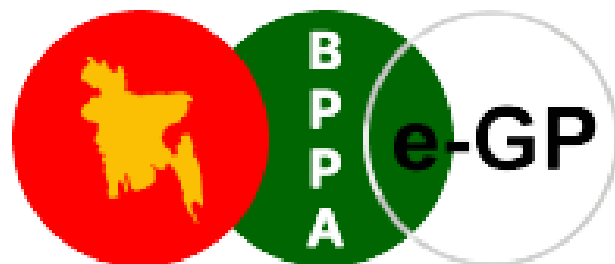

Experience Manipulation

PROTOTYPE

<https://auctra.monzim.com/>

E-GP PROBLEMS

Overreliance on LTM

Excessive use of Limited Tender Methods.

Single-Bid Contracts

Many contracts receive only one bid.

Market Domination

A small number of contractors control the market.

PROTOTYPE

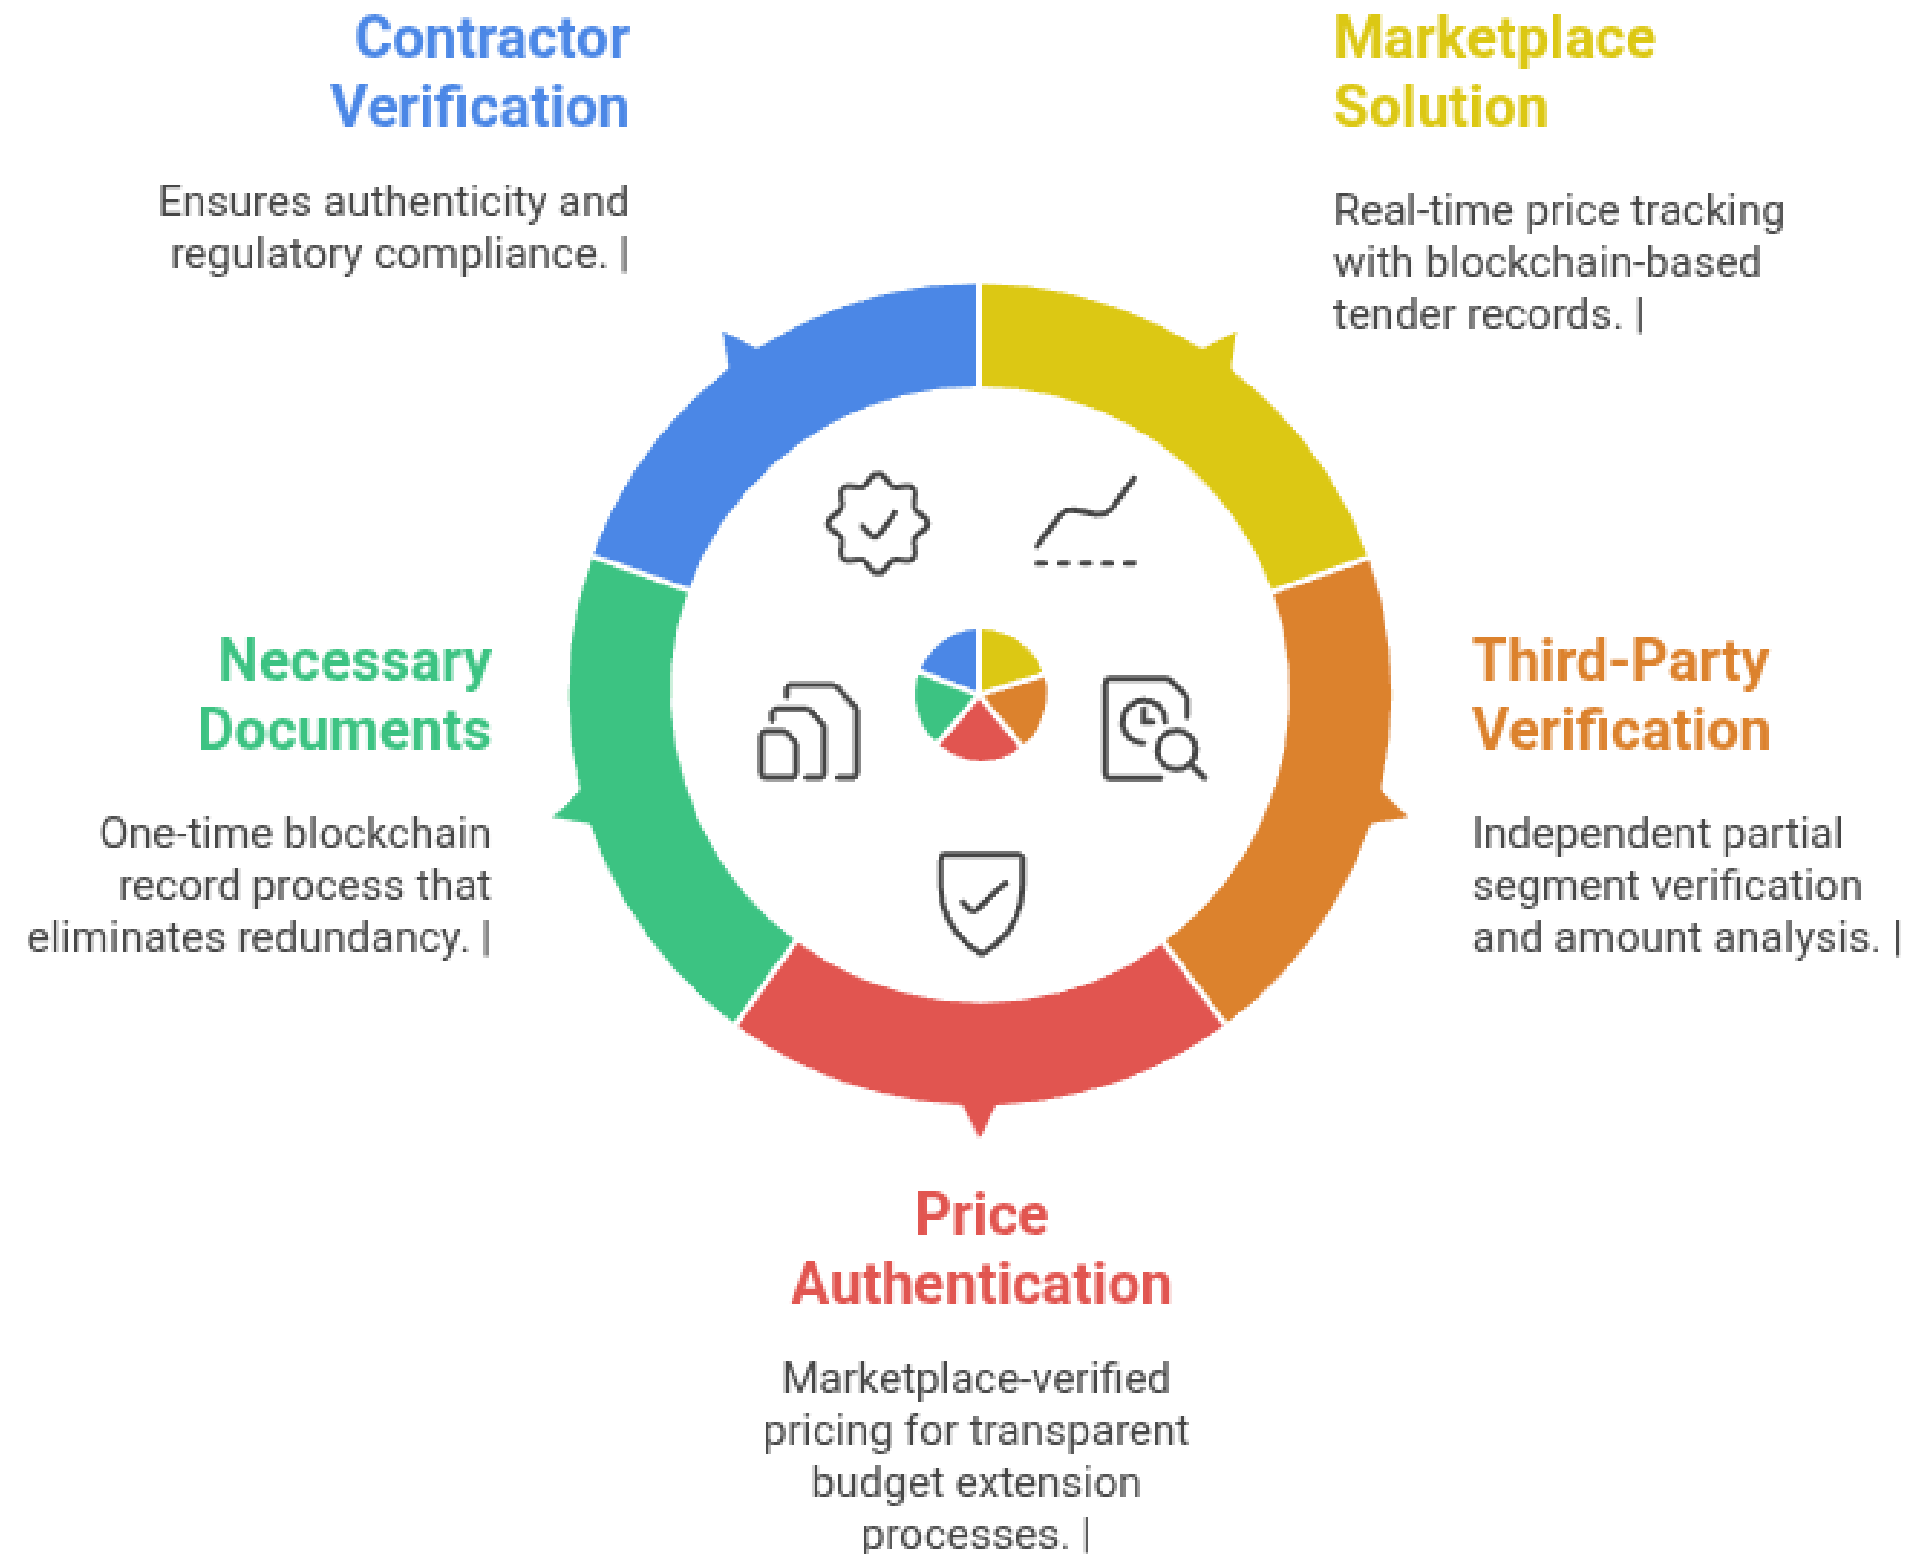

<https://aucetra.monzim.com/>

OUR SOLUTION

PROTOTYPE

<https://aucetra.monzim.com/>

CORE SOLUTIONS & TRACKING

ADVANCED FEATURES & AUTOMATION

E-GP Notifications

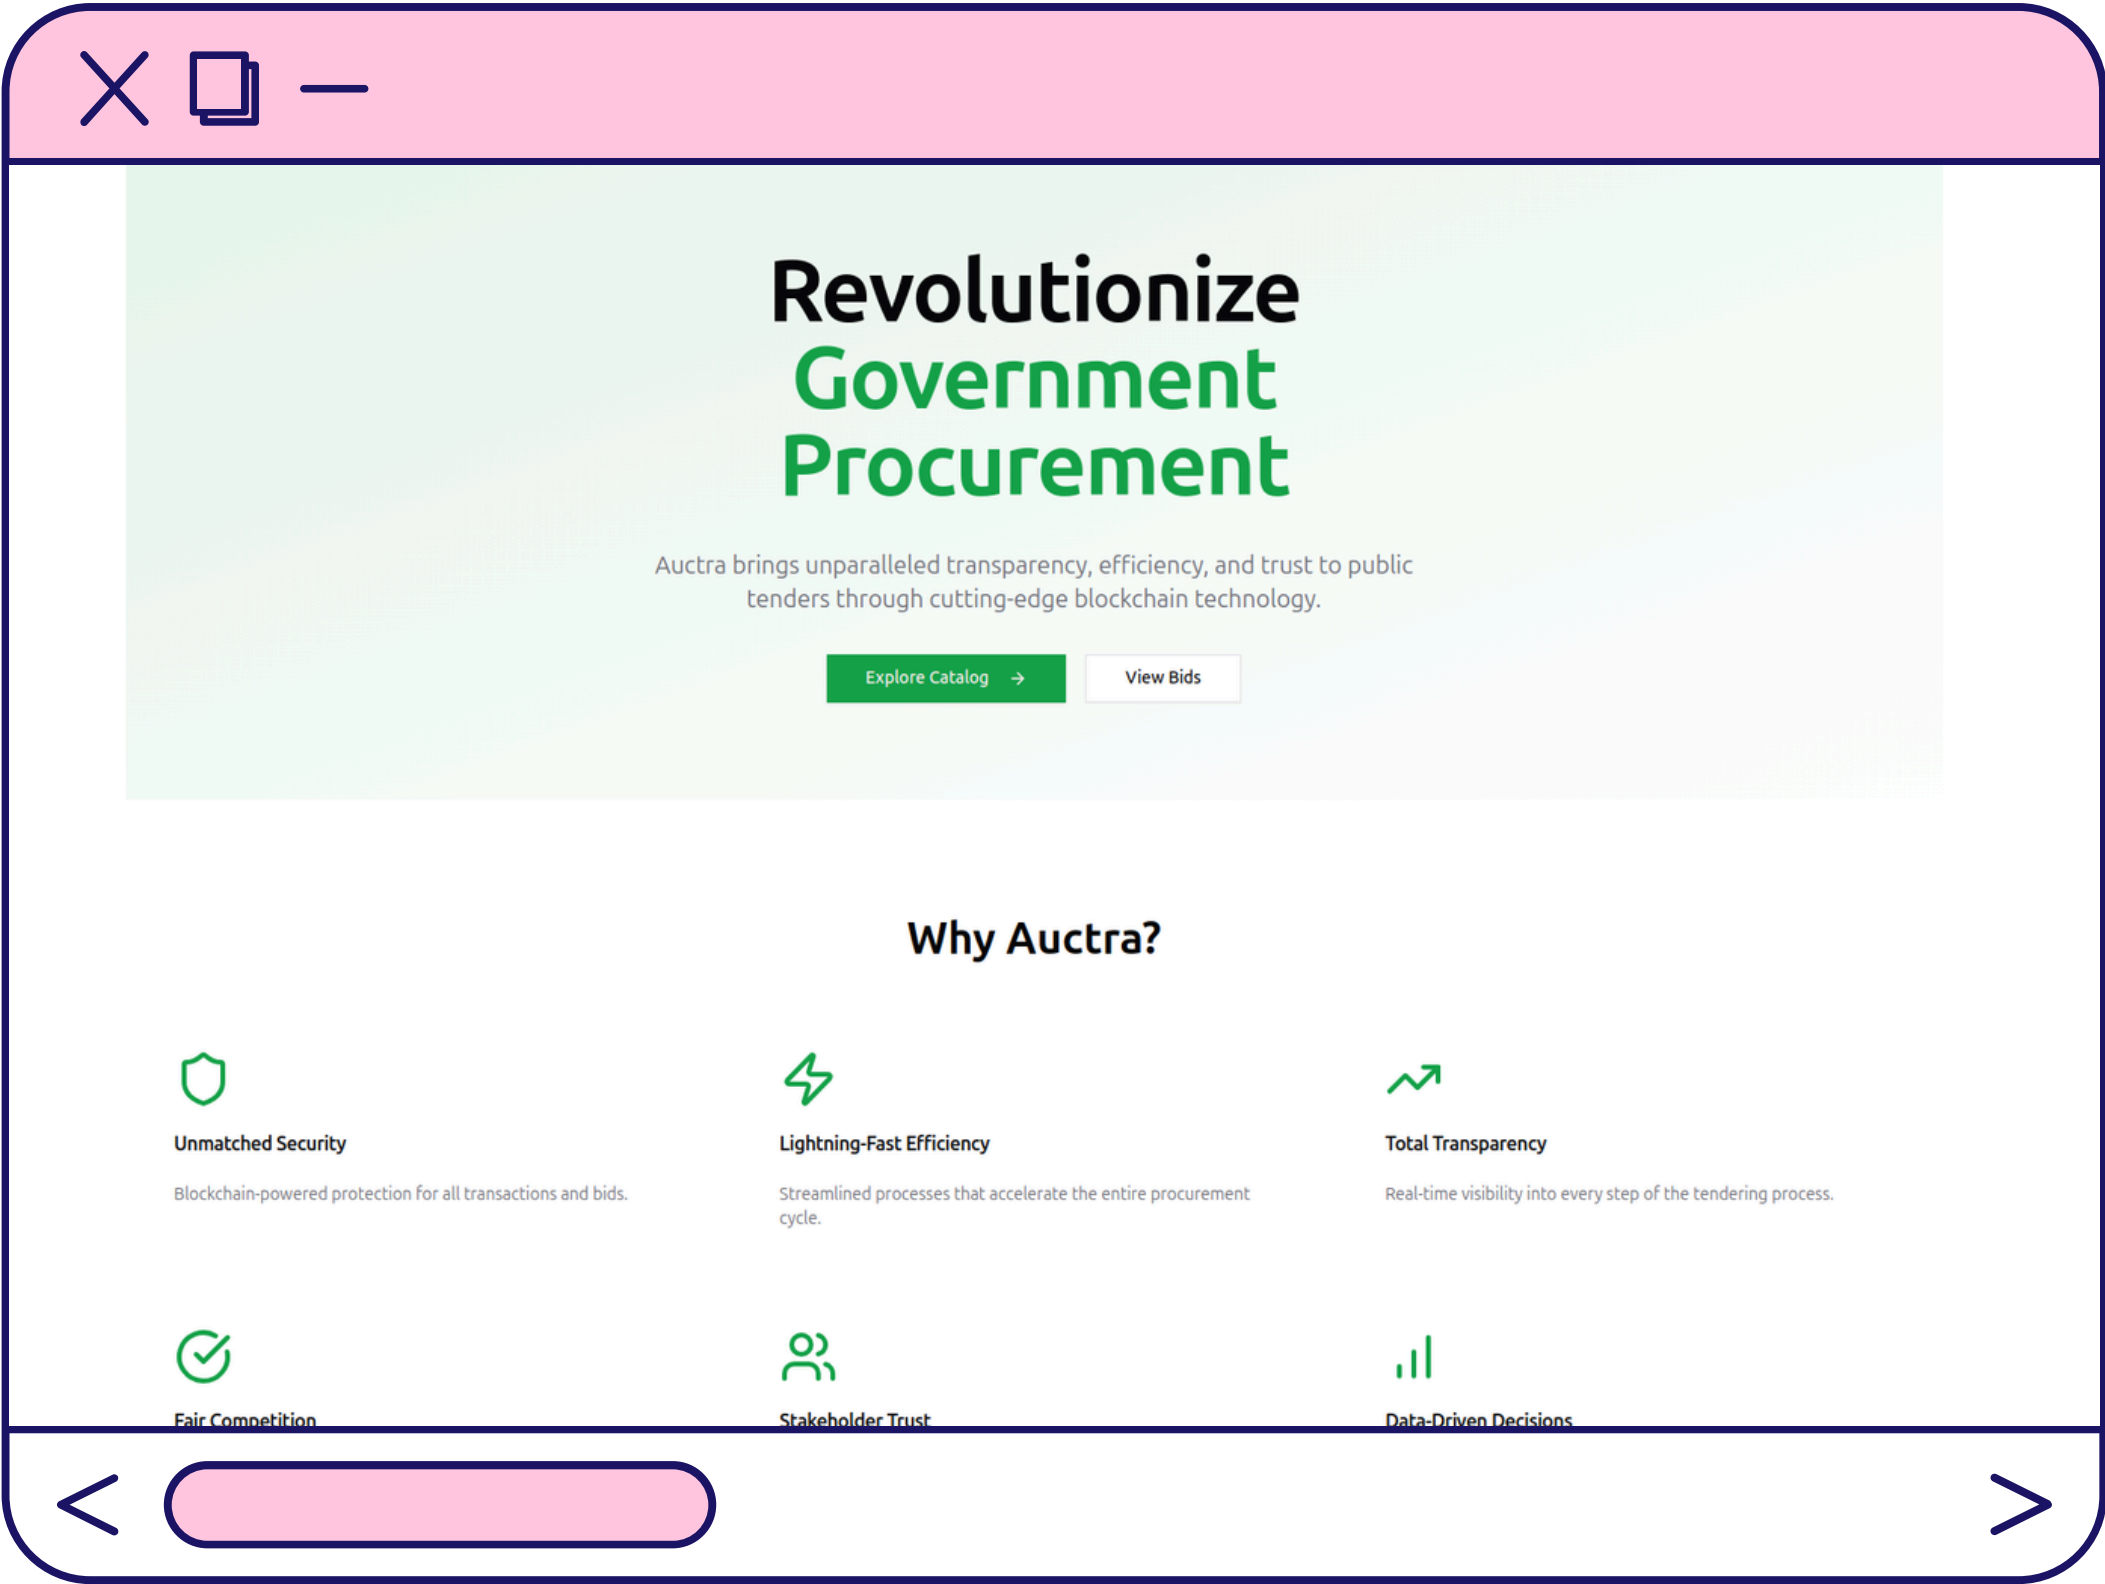

Automatic updates to stakeholders for tender contracts. Real-time status tracking and alerts.

Future Budget Estimation

AI estimates upcoming procurement needs. Strategic planning support for resource allocation.

Marketplace & Price Intelligence Architecture

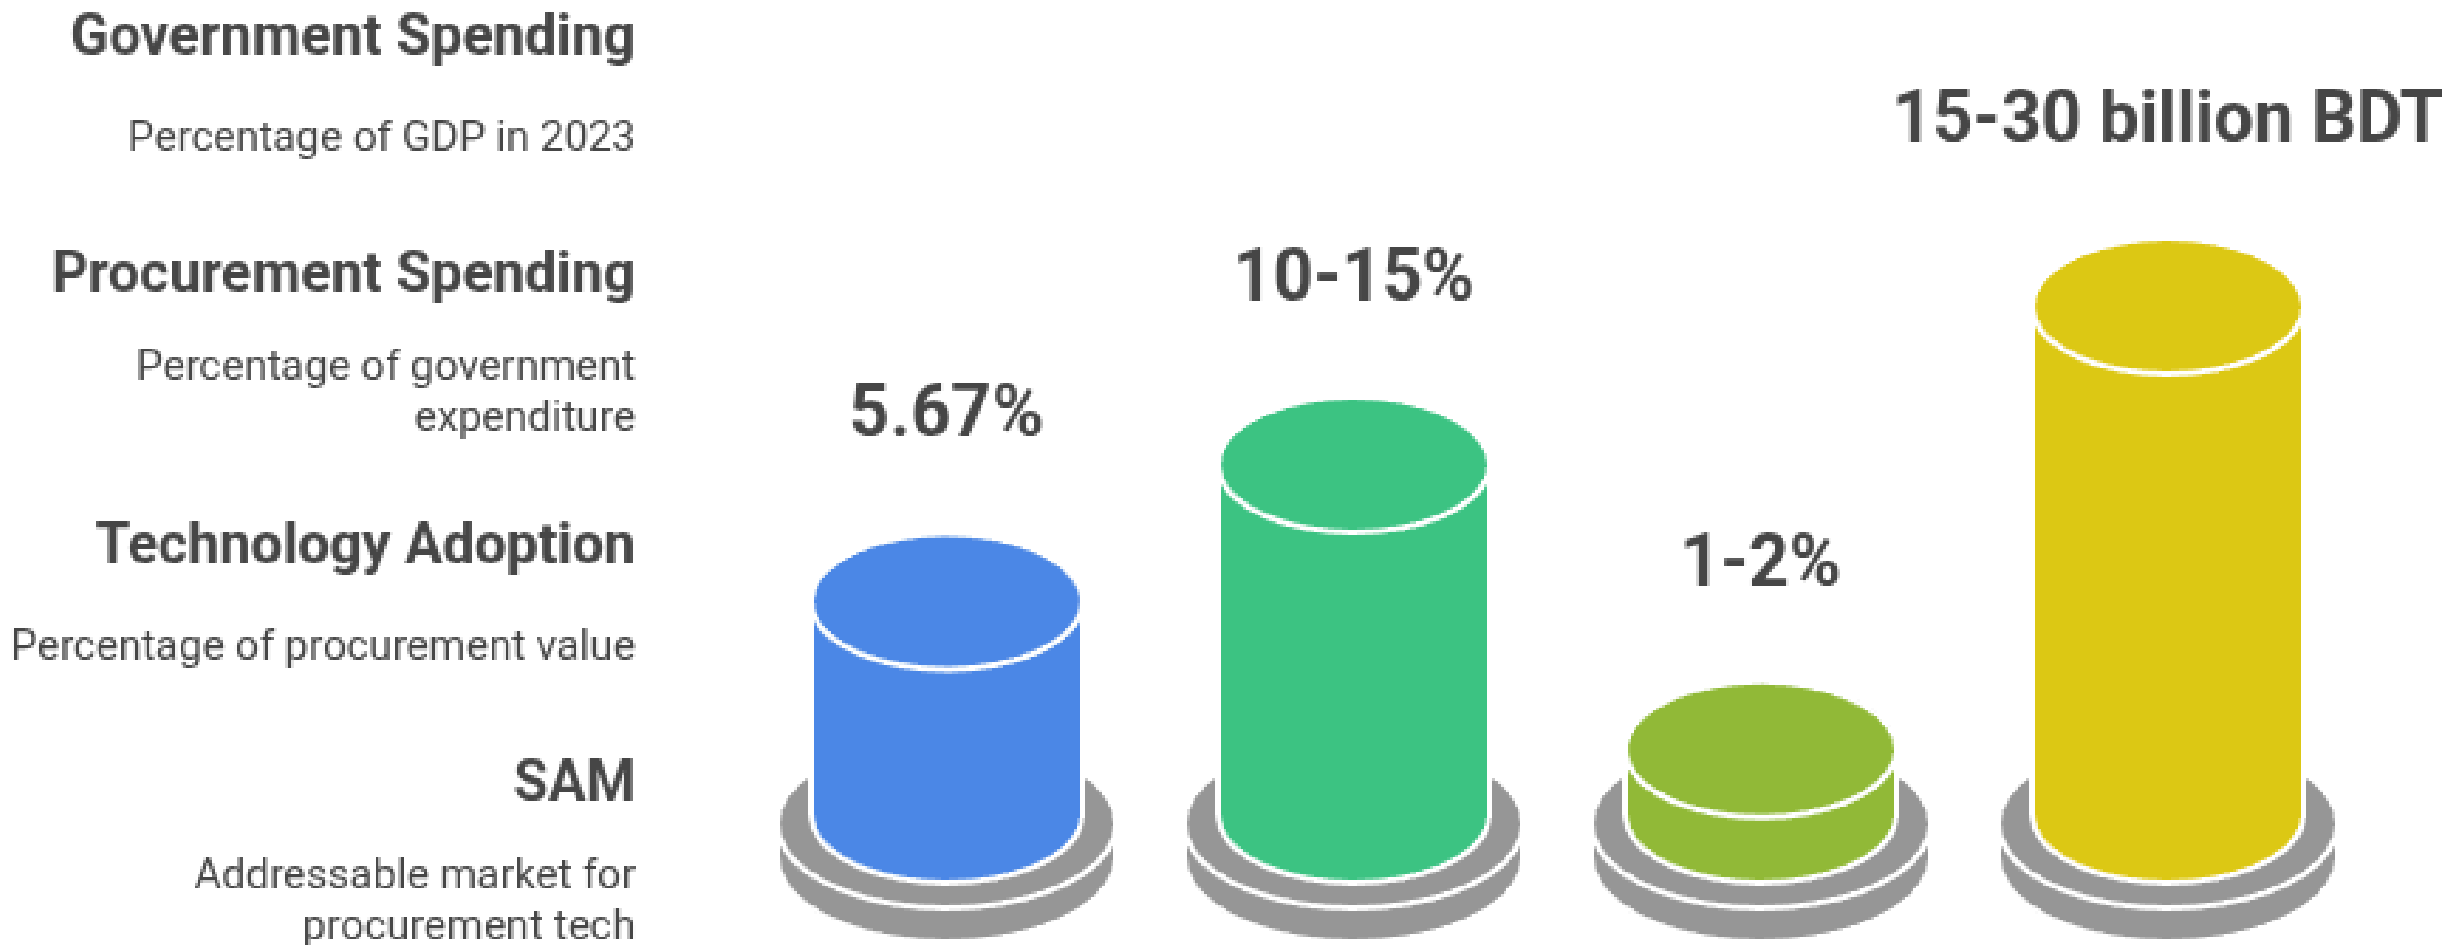

Market Size Analysis

TAM - Total Addressable Market

Market Size Analysis

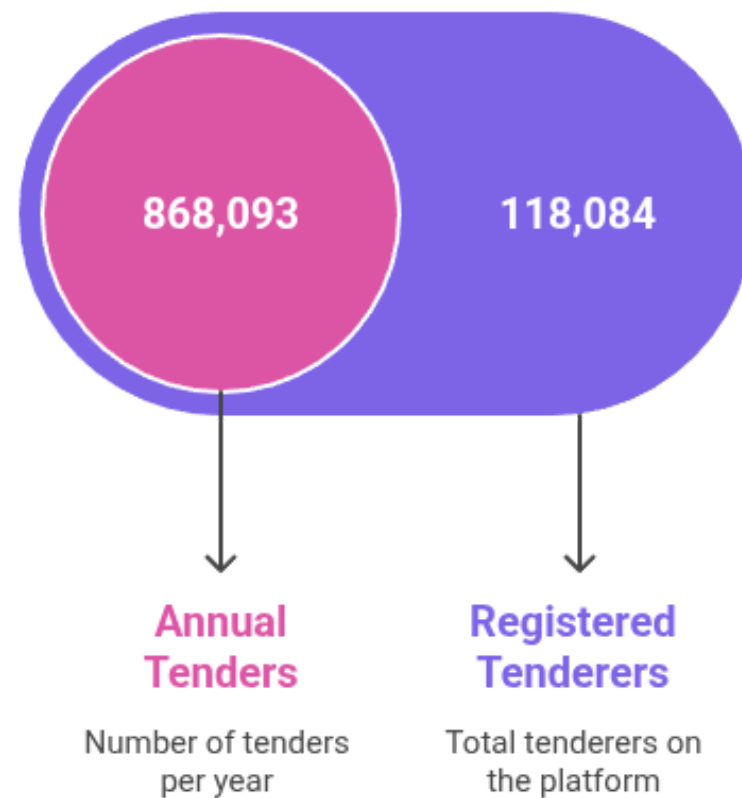

SAM - Serviceable Addressable Market

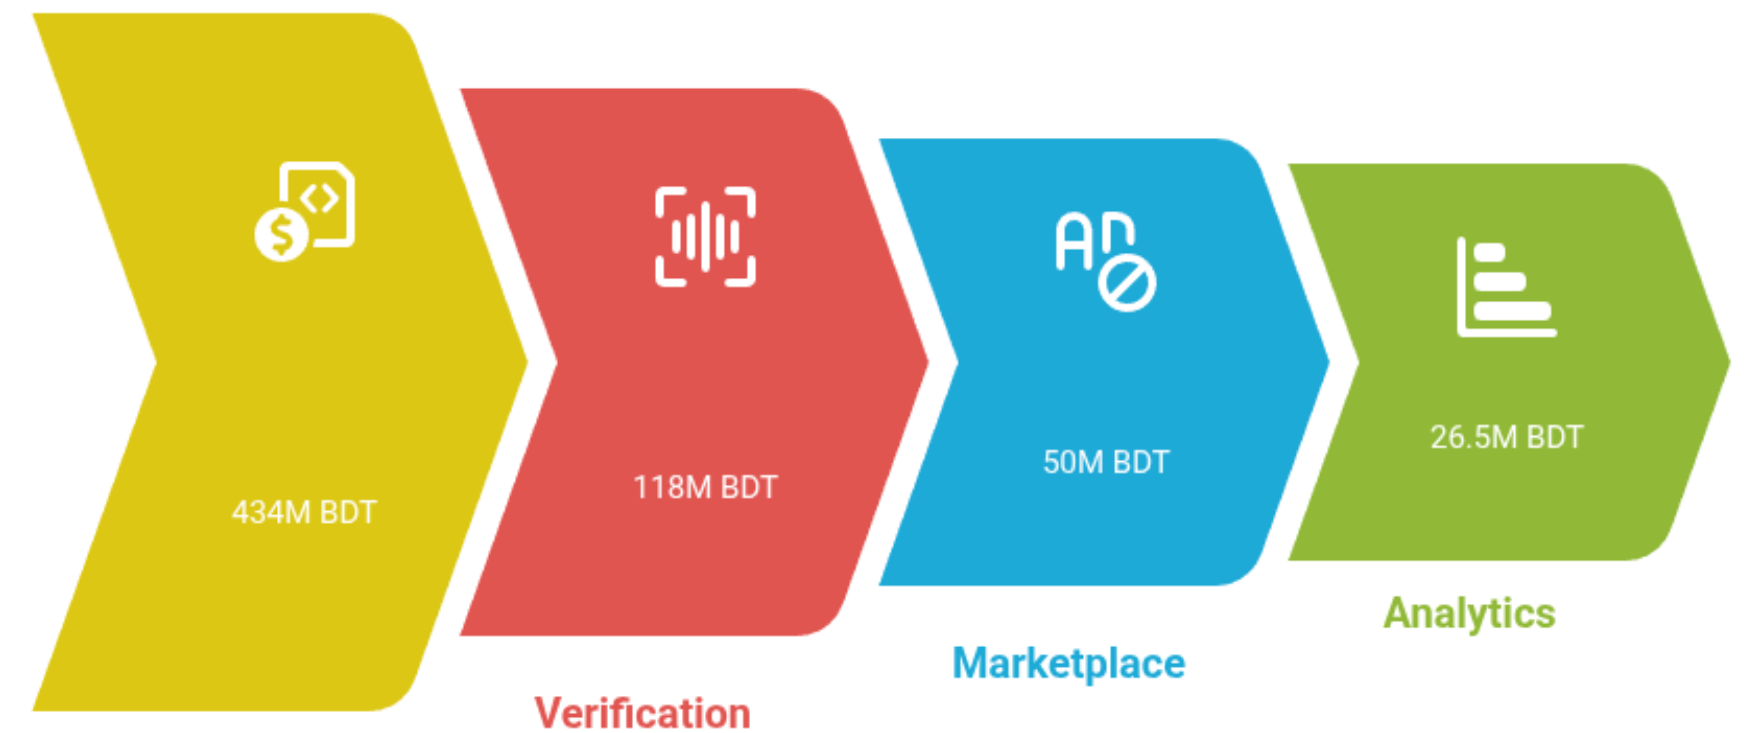

Market Size Analysis

SOM - Serviceable Obtainable Market

Auctra's Target Market Size

Revenue at Full Adoption

SOM: 628.5M BDT (~\$5.24M USD)

Busniess Model Canvas

Key Partners

- **Government:** CPTU, ministries, local bodies
- **Tech:** Cloud providers, security firms
- **Strategic:** Universities, NGOs, donors

Key Activities

- Tender Management
- Bid Evaluation
- Minimum Bid Thresholds
- Verified Listings
- Product Verification
- Immutable Records
- Tracking and Monitoring
- Prediction and Forecasting
- Public Dashboards
- Digital Watermarking

Value Propositions

- **Government:** Cost savings, transparency, automation
- **Contractors:** Fair competition, easy access, faster payments
- **Citizens:** Public accountability, better infrastructure

Customer Relationship

- **B2G:** Account managers, 24/7 support
- **Suppliers:** Self-service, regional training
- Continuous feedback loops

Channels

Web/mobile portals
Direct government engagement
Training programs
Industry partnerships

Customer Segments

Contractors
Product Company
Private Developers

Cost Structure

Initial Investment

- Infrastructure Setup
- Software Development
- Maintainance and Research
- Training & Deployment

Operational Expenses

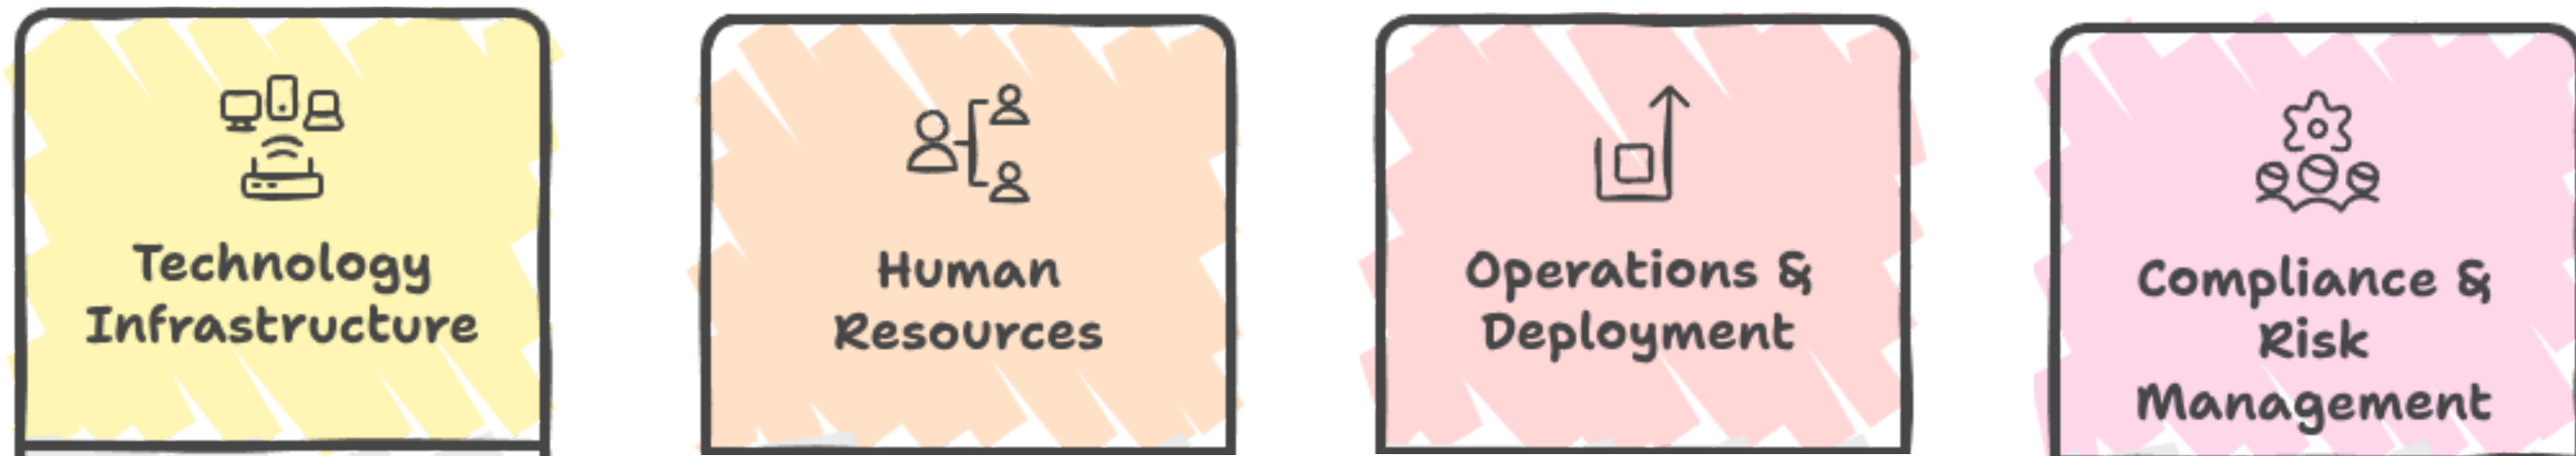

- Infrastructure Maintenance.
- Personnel Costs.
- Security & Compliance.
- Marketing & Training

Revenue Stream

Platform Usage Fees: Pay for what you use.
Verification Services: Authenticity guaranteed.
API Access: Connect effortlessly.
Data Analytics Services: Insights that matter.

Where Does the Investment Go?

PROTOTYPE

<https://auctra.monzim.com/>

Revenue Stream

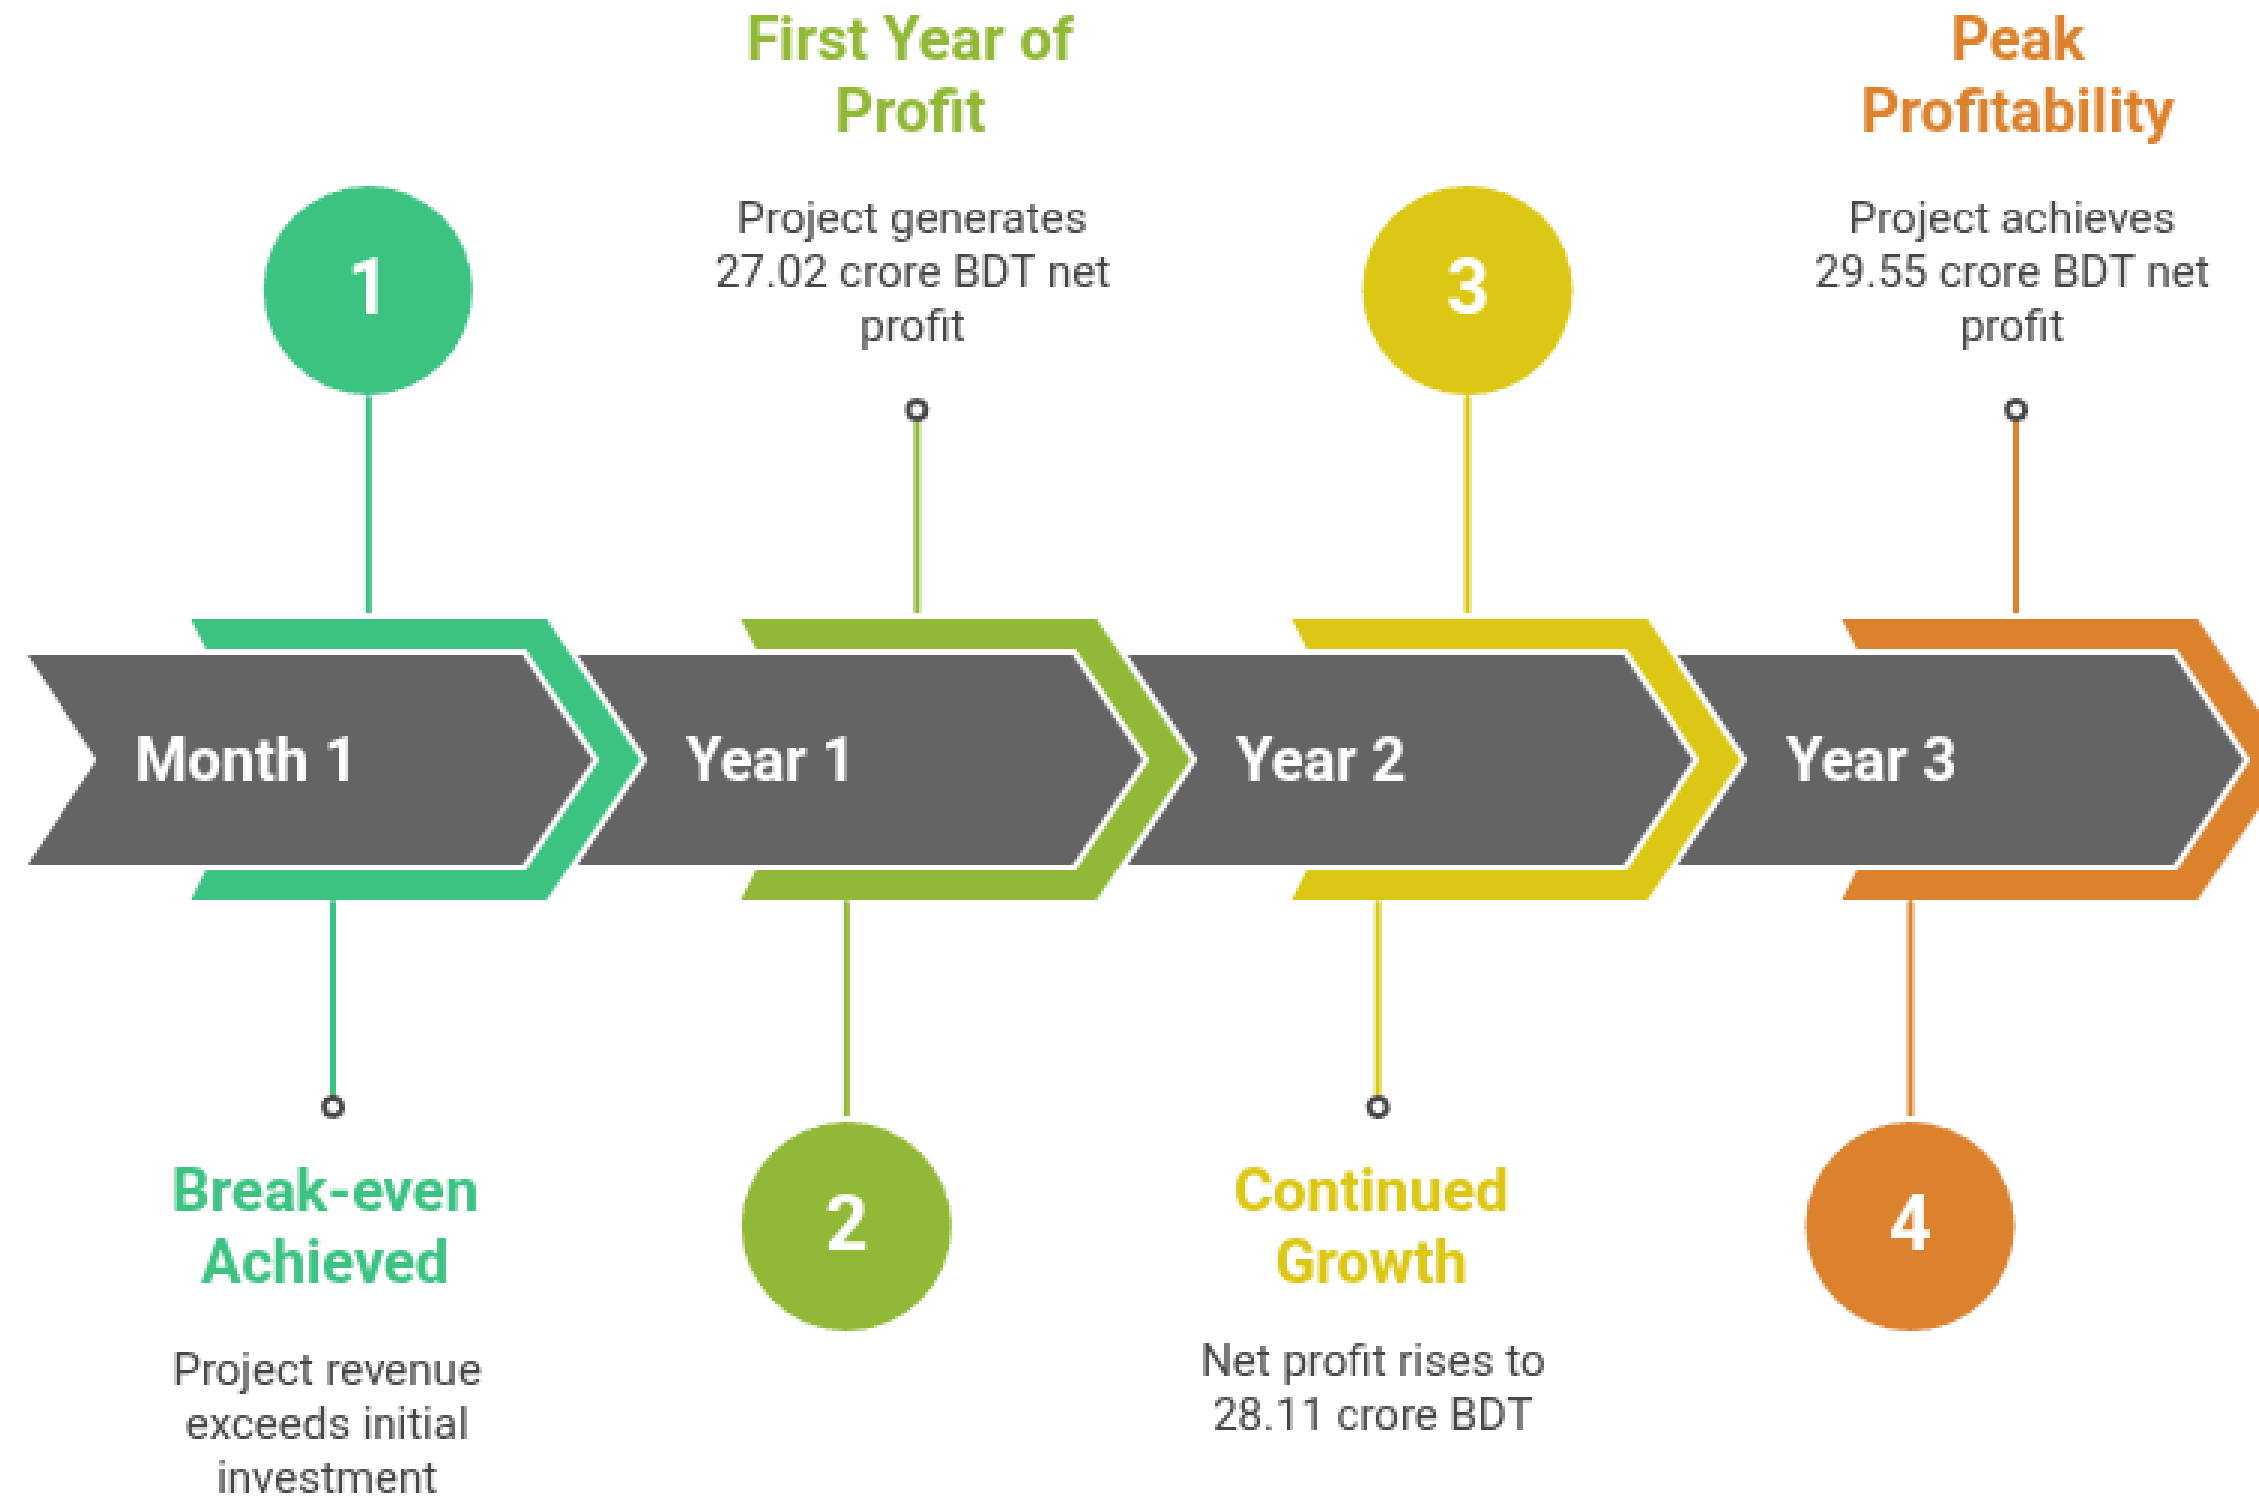

Assumptions for Calculations:

Characteristic	Core Platform	Marketplace	Premium Analytics
 Fee Type	Platform Usage Fee	Marketplace Entry Fee	Data Analytics Services
 Key Benefit	Direct revenue from activity	Expands vendor ecosystem	Advanced insights and reporting
 Payment	500 BDT per tender	1,000 BDT per product	18,000 BDT annually

PROTOTYPE

Financial Projection Overview

Financial Projection Overview

Metric	Performance Indicators	Critical Risk Alert	Conservative Scenario
 3-Year Total Revenue	87,38,73,000 BDT	No data	No data
 3-Year Total Profit	85,53,73,000 BDT	No data	No data
 Average Profit Margin	96.9%	No data	No data
 Revenue Growth Rate	5% annually	No data	No data
 Revenue Assumption Issue	No data	46,200 tenders/month needed	No data
 Recommendation	No data	Revise to 10-20% market penetration	No data
 Year 1 Revenue	No data	No data	6,00,00,000 BDT
 Year 1 Profit	No data	No data	5,30,00,000 BDT
 Adjusted ROI	No data	No data	757%

The Competitive Landscape

Key Differentiators

Bangladesh-specific design

Tailored for Bangladesh with potential for regional growth.

SME-first approach

Addresses market inclusion gaps with a focus on SMEs.

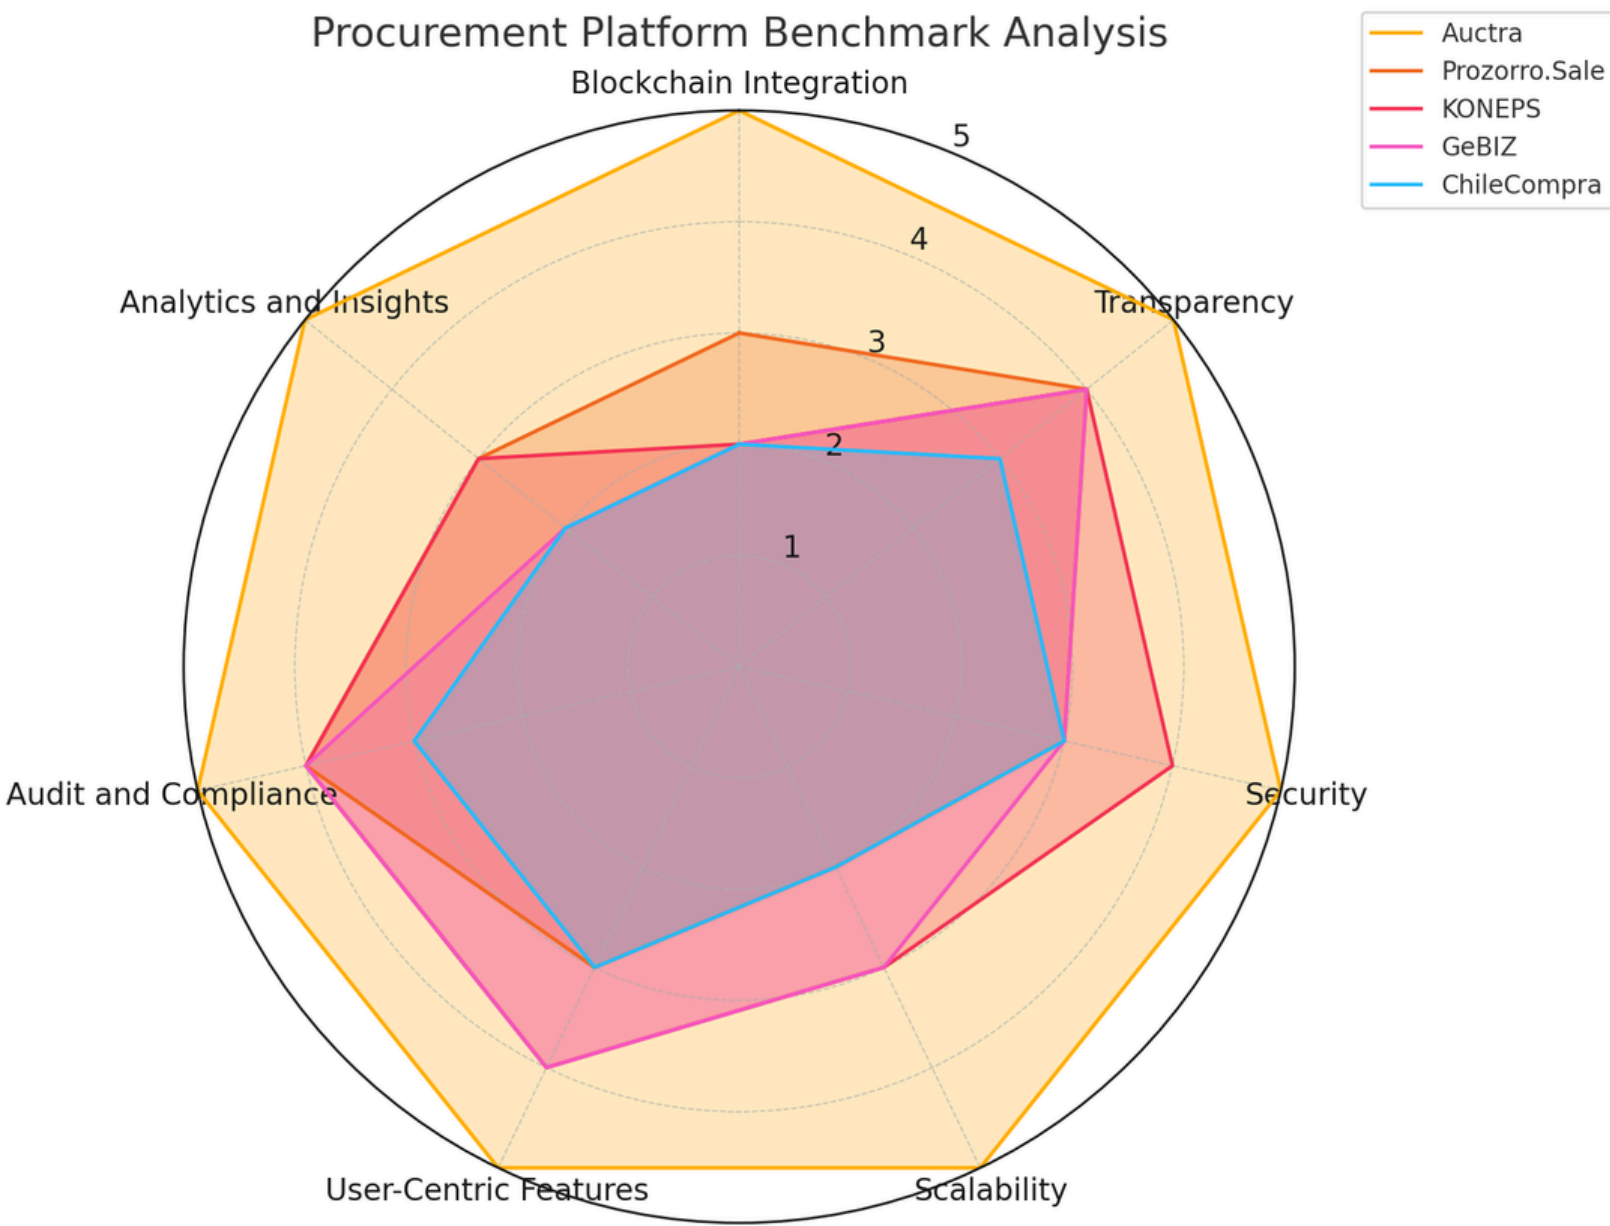

Blockchain-native solution

Designed specifically for public procurement needs.

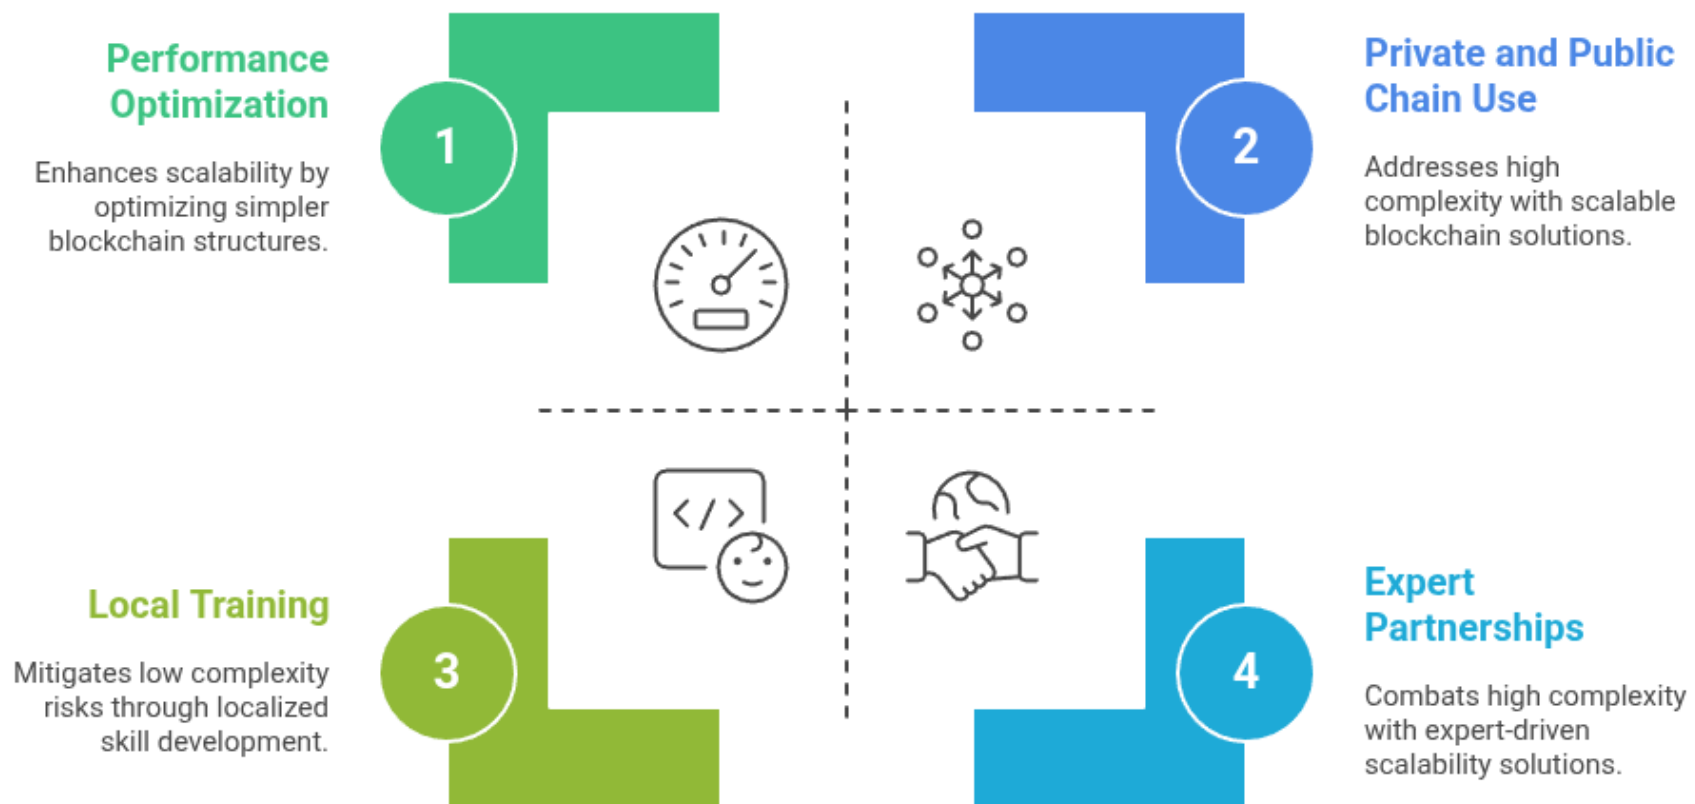

Full public transparency

Offers complete transparency, unlike enterprise-focused competitors.

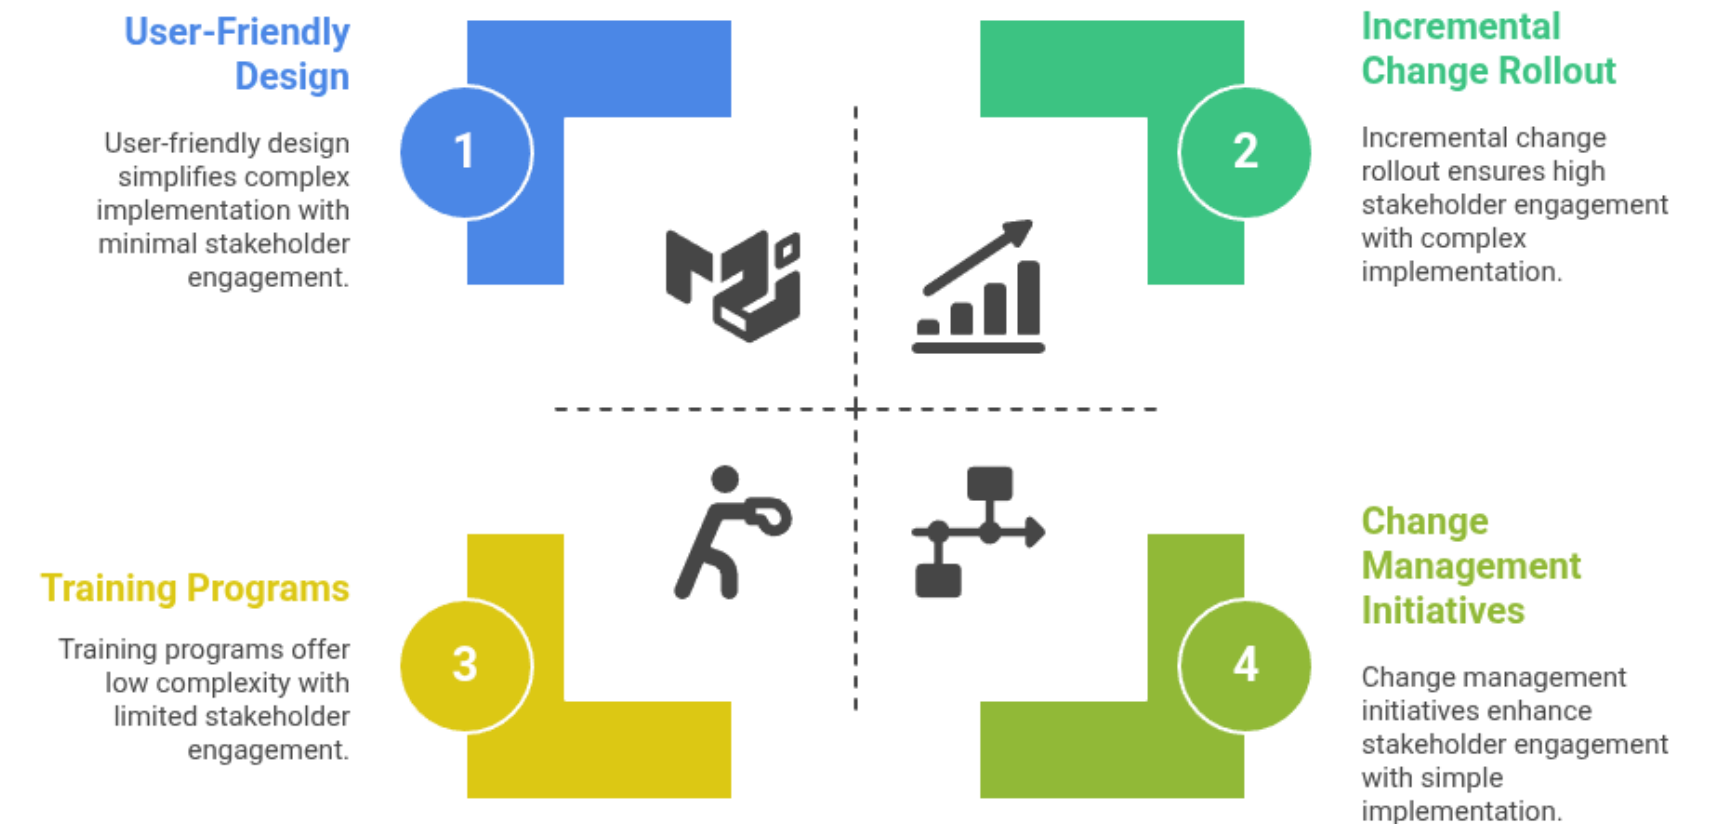

Risks in Implementing Auctra
